DISTRICT 9910 NEWSLETTER - APRIL 2022

Governor Introduction

Greetings fellow Rotarians and welcome to the April issue of the District Governor's Newsletter. April is Maternal and Child Health Month, a great opportunity for your clubs to consider what you are doing to support the health of mothers and young children in our community and around the world.

Rotary through various programs makes high quality health care available to mothers and children to improve their health outcomes. Over 5.9 million children die each year because of malnutrition, inadequate health care and poor sanitation. Help from Rotary comes in many forms including education, immunisation, birthing kits and health clinics. Much of this help is funded by grants from the Rotary Foundation. Another reason to give generously to the Foundation!

There are a number of Maternal and Child Health Programs operated by Rotarians in New Zealand including:

Rotary Give Every Child A Future

The Rotary Give Every Child A Future project will celebrate 100 years of service and in collaboration with UNICEF, we plan to vaccinate the most disadvantaged children and adolescent girls across the Pacific, so generations of children and women are protected against cervical cancer, rotavirus & pneumococcal disease.

Rotary Oceania Medical Aid for Children (ROMAC).

ROMAC brings children from developing nations to New Zealand for major, sometimes lifesaving surgery, where the surgery is not available in their home nation. The health professionals donate their time and expertise.

Interplast Australia and New Zealand was established in 1983 in conjunction with the Australasian College of Surgeons. It sends Australian and New Zealand health professionals to developing countries to rebuild lives and restore hope.

Rotary New Zealand World Community Service (RNZWCS) works in harmony with the Rotary Foundation to deliver humanitarian aid through project services to New Zealand Rotary Clubs for project accounting, donations and fundraising support, management, regulatory compliance, volunteer support, communications and support.

So there are many ways you can contribute to improving health outcomes for mothers and children and we are very grateful for your ongoing support.

Sarah and I have now completed all of our Club District Governor visits for our New Zealand based clubs (a few virtually but the majority face to face) and it has been a real privilege and sense of accomplishment to connect with you all throughout our District. We are still working on plans to connect with our wonderful Pacific Island clubs, regrettably with Covid implications most of these will most likely to be done virtually.

Clubs will be thinking about/planning their Club Changeovers. Please let me know if you would like Sarah and I to attend your Club Changeover. We have our diary ready to go, so first in best dressed!

Wishing you all the best for the Rotary month ahead.

*Governor Grant
and Sarah Smith*

Governor - District 9910
2021-2022

Out and About with Governor Grant

4 April – DG Visit to Henderson Rotalite

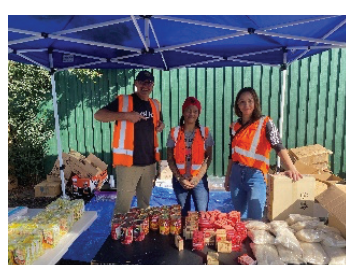

6 April – New member induction Albany Rotary

13 April – DG Visit to Whangarei Rotary

19 April – DG Visit to Waipapa

24 April – DG Visit to Waitakere Rotary event

District 9910 Annual General Meeting

A reminder to you all that the Annual General Meeting of Rotary International District 9910 Incorporated will be held on

Saturday, 30 April 2022, 10.00 am via Zoom.

The link is listed: <https://us02web.zoom.us/j/86064278689?pwd=UIJESVBtTi9ud0VhMEJ5TzBnUkpSZz09>

Meeting ID: 860 6427 8689

Passcode: 680444

Items to be covered include:

1. Apologies
2. Minutes of AGM held 11 April 2021
3. Matters Arising From the Minutes
4. Consideration of District 9910 District Governor's Reviewed Financial Statements – 2020-21
5. Consideration of District 9910 Reserve Fund Reviewed Financial Statements – 2020-21
6. Consideration of the District 9910 Conference 2021 Financial Report
7. Receive the District 9910 Conference 1990 Trust Fund Financial Statement 2021
8. Resolution to put training levy into DGE budget to remove the need for a secondary invoice process
9. Consider the amendments to the District Bylaws as per the attached
10. General Business

If your club is incorporated within New Zealand then you may appoint electors, depending on the number of club members, to vote on your behalf. For example: Any club with a membership of more than 25 shall be entitled to one additional elector for each additional 25, or major fraction thereof, of its members.

- clubs who want their events here should send information/flyers to District Administrator, district9910@gmail.com

Rotary Takapuna Presentation to Local Library

Takapuna Rotary had arranged to install a display at the Takapuna Library last year in conjunction with presenting the Library with a copy of the Centennial Book, Mana Tangata, but was thwarted by the COVID lockdown.

This was revived recently with a book presentation to the Takapuna Library's Head Librarian and a long term passive display at the entrance to the Library (including direction to the Reference section to view the book along with the Takapuna Rotary's 50th Birthday publication from 2003.

The following article appeared in the local free newspaper, The Rangitoto Observer, on 18th March.

MARCH 18, 2022

What goes around... Takapuna community librarian Anne Betts is given a book on 100 years of Rotary, from Takapuna Rotary members Geoff Pownall, Neil Murray and president Young-Shin Watkins

Local Rotary earns share of limelight

Takapuna Rotary stars in a new book celebrating 100 years of the volunteer group in New Zealand.

The first Rotary club in New Zealand was set up in Wellington in 1921, 16 years after the organisation was founded in the US, and a group established in Auckland soon after.

Its history here has been recorded in a book recently donated to Takapuna Library.

The Takapuna club, founded in 1953, merits being part of two stories in the book.

The first is about the Abilities Group, which it set up in 1959.

It provides employment for people with disabilities in sustainability and recycling, offering services like polystyrene recycling and certified destruction. The company employs 120 staff at a base in Glenfield, about half of whom have disabilities.

The second project the Takapuna club has been involved in is Romac (Rotary Oceania Medical Aid for Children). This brings kids into New Zealand or Australia

for medical surgeries they cannot get in their own countries.

"Even though we're small, we're an active club and we're still involved at all levels of Rotary," member Neil Murray said.

"We all made our living out of our local community so we give back to the community wherever we can because we believe in it."

Murray will become district manager over multiple clubs between Takapuna and Kaitiaia, including Vanuatu and New Caledonia, in 2023.

Takapuna Rotary continues to help in many small ways around the community, painting facilities and helping at working bees. "It's an outlet for those people who say 'where can I serve my community?'" member Geoff Pownall said.

Those interested or needing help with a project can always contact the club, president Young-Shin Watkins said.

It has around 20 members and can be reached at takapunarotary@gmail.com.

Re-Use and Re-Cycle

Contact Elaine Mead on elainemead.rotary@gmail.com if you are interested in any of these.

Past President and Honorary Member pins
looking for a good home

Paul Harris Fellow 2 Sapphire pins available

If your club is recognising someone at this level the application form still needs to be completed.

Use this link for the [RISPPO PHF Recognition form](#) and check 'Electronic Regalia' by the Dispatch Option.

When you email the form to RISPPO remind them you don't need the pin sent.

Ranui and Swanson Community Event

Congratulations to Rotary Waitakere and Unity In Our Community for an amazing event to support the local people of Ranui and Swanson held at Western Park Village on Sunday 24th of April. Our wonderful Rotarian Kriddles Roberts and her team have worked tirelessly over the past few months to gather items to be able to give away at this event.

There was an amazing selection of free items including free food with a sausage sizzle, brand new and used clothing and shoes, food and toiletry packs, baby products, woman's essentials men's essentials and so much more. Locals from all over the area came to take advantage of this generous offering and to see local artists and community groups perform. Everything on the day was free which was warmly received by all who came along.

Congratulations to Unity In Our Community and Rotary Waitakere for such an amazing event where you have really served your local community and helped change their lives.

It was a privilege to have supported your event, DG Grant.

Maungakiekie Songbird Trust

Rotary Onehunga-One Tree Hill had a guest Speaker, Iain Hook, who has a background in sales and marketing, and he did a presentation relating the formation and activities of the Maungakiekie Songbird Trust.

Iain lives locally and had noticed a decline of bird life over past years, which he suspected was from combination of pests and reducing habitat. His idea was to establish a 'halo' area around Parks that mobilized the community to enhance the habitat. "Bring back the songbirds".

His first action was to meet and discuss the concept with the two parks administrators, as their 'buy-in' was and is important. Cornwall Park Trust Board who manages and operates Cornwall Park and Maungakiekie /One Tree Hill domain is managed by Tūpuna Maunga Authority.

Organisational structure

Maungakiekie Songbird is a project formed to return the songbirds to the Maungakiekie area by creating both a safe haven for birds as well as enhancing the local habitat. The project is supporting over 500 halo residents, including organisations such as schools, and local businesses, to actively support the habitat by not only suppressing predators through trapping but also enhancing the natural habitat through the likes of native tree planting. For residents, businesses and organisations within the halo area we have a range of free resources that will help create a thriving local habitat. From monitoring tools that detect the presence of predators, to traps that will reduce their population numbers, an enhanced range of native trees, including some very special specimens, creating shelter and a food source for birds and insects, through to bird feeders to attract birds to your garden.

A Charitable Trust has been established to run the project. The Trust name – reflects 'positive outcome', not narrow focus on just pests. Visit the Trust website: www.maungakiekiesongbird.nz for more details.

Letter box flyers allow targeting of "halo" residents, which has resulted in the ~550 current membership supporting the project.

Iain formulated a 6 step "business plan" used to socialise to interested parties such as funders. Seed funding was going to be required to provide the free resources to residents in the halo area. Envirotools, was selected to supply both rodent and Possum traps. These traps were selected for their ease of use, quality of manufacturer, value for money, and our support of a New Zealand manufacturer. To date ~400 members have received either a rodent and/or possum trap. Both traps provide a humane kill – certified for this. In February 2021, a new trap was added to the mix – a hanging wasp trap.

Native trees are being supplied and they are working with the nursey team at Cornwall Park. Bird feeders are the top requested item – who doesn't want birds in the garden ! The sugar-water bottle supports nectar feeders, such as Tui's, while a hook on the underside of the platform allows you to hang any desired feeder to target a range of other species such as finches. The membership represents around 20% of eligible households in the "halo" area. This is a significant result vs other projects that are pest control focused.

New Lease of Life for Paihia School Footbridge

A small footbridge behind the St John Ambulance station in Paihia has been refurbished by a team of able bodied volunteers from the ROTARY CLUB of Bay of Islands, with the support of FOCUS PAIHIA and ITM HARURU.

It all started late last year with a discussion between Stephen Wilce, the previous school caretaker and current President of Rotary Kaikohe, Harvey Bourne BOI Rotary president and members of the Bay of Islands Rotary Communities team to best determine how the footbridge could be repaired and made safer. After discussions within the team and some applied knowledge from some of the team with an engineering and design background, and finally with ITM Haruru, a plan was worked out which would be a cost-effective way of refurbishing the footbridge.

Further discussions with Focus Paihia and then with ITM Haruru and a plan was put into action to start the work of clearing the under bridge growth and foliage and checking the soundness of the bridge footings. The footings were found to be sound so the 'Dream Team' got to work with a series of working bees which began in mid February and were completed a short time later with and the painting of a base coat and two top coats.

The project is truly a community initiative that has been successful because Rotary, Focus Paihia and ITM Haruru have 'pitched in' to make the repairs to this valuable community asset that is used both by the school children and the greater Paihia community. The footbridge provides entry from Williams Rd when accessing the school grounds.

A small plaque is yet to be organised and attached to the bridge to acknowledge the joint working together to achieve a united outcome for the community.

There will be a hand-over of the refurbished footbridge to the Paihia School sometime when the new term starts.

Nadia Lehmann teazemaid@hotmail.com

Group photo-Don Rushworth, Tom Dawson, Mike Sullivan, Gary Adern and Roger Topliss get together to start the clean up around the bridge and check the work required.

Thys van Lingen, Gary Adern (Sitting on the plank), and Roger Topliss apply a fresh lick of paint to complete the project.

FOUNDATION NEWS

Wild Polio in Pakistan

Following is the official press release from RI Past Vice President and International PolioPlus Committee Chair Mike McGovern on the discovery of ONE further case of wild polio virus in Pakistan.

Rotary statement on WPV1 case in Pakistan
22 April 2022

After nearly 15 months without any reported cases of wild polio in Pakistan, a 15-month-old boy in North Waziristan was paralyzed by the wild poliovirus.

Pakistan's Polio Emergency Operations Centers have deployed teams to conduct a full investigation of the recent case, while emergency immunization campaigns are underway to prevent further spread of the wild poliovirus to other parts of Pakistan and across the Afghan border.

While this news is disappointing, it is not entirely unexpected. Despite record-low case counts, throughout 2021, polio surveillance in Pakistan has detected positive environmental samples indicating that the virus continues to circulate in parts of the country.

As the Global Polio Eradication Initiative responds urgently to the new case, Rotary members in Pakistan will work to raise awareness about the importance of polio immunization and advocate with the government to prioritize eradication.

The case in Pakistan underscores the fact that our work is not over, and any complacency can hinder the polio program's progress. It is critical that Rotary members around the world intensify their efforts to [raise funds](#) for PolioPlus, so that we can provide the funding necessary to respond to any new cases of polio in polio-endemic and outbreak countries. At the same time, Rotary members can be proud of the work they have done to bring wild polio case counts to a historic low, and can continue to leverage this momentum to make polio eradication a reality.

Michael K. McGovern

You're invited to

District Governor Changeover and Mini Conference

on

Saturday 2nd July 2022

10.00am for nibbles and drinks

10:30 to 1.30pm Formalities

at

Orewa Arts and Event Centre

Orewa College, 76 Riverside Road, Orewa

Cost: \$20.00 per head

Come along and celebrate DG Changeover
and help celebrate the year that was, and the year ahead.
With the District Conference cancelled, some of the speakers will be
presenting their talks at changeover

Club Leaders Seminar

We are pleased to advise the details of the upcoming Club Leaders Seminar to be held via Zoom on Sunday 15th of May from 9.30am to 3.30pm.

There will be one single Zoom meeting link and you can connect in for the parts of the programme that apply to you, or you are interested in. We have a number of sessions which will contain useful, practical information which will be relevant to your club in the 2022-23 year. Please encourage members of your club to review the programme and register to attend.

Of particular note is the session relating to District Grants. At least one person from your club must attend to qualify your club for receiving a District Grant this year.

#	Time	Session name/description	Audience / Details
1	9.30am-9.45am	District Budget	President Elects
2	9.50am-10.15am	Practical ideas for running meetings	President Elects
3	10.20am-10.40am	Key dates to be aware of, plus key information on youth programmes	President Elects, Secretaries, Youth Committee Chairs
4	10.45am-11.15am	Finding and running successful community service projects	Service Projects
5	11.30am-12.00pm	District Grants	One person from your club must attend in order to qualify for a District Grant this year
6	12.30pm-1.00pm	Promoting your club - making effective use of Social Media	Public Image Chair
7	1.00pm-1.30pm	Promoting your club - video editing	Public Image Chair
8	1.35pm-2.00pm	My Rotary - useful skills for club Secretaries and Presidents	Secretaries, Presidents
9	2.00pm-2.30pm	How to promote and gain new donors for The Rotary Foundation	Foundation Chairs
10	2.35pm-3.05pm	Ideas for increasing membership and member engagement	Membership Chairs
11	3.05pm-3.35pm	Ask me anything	A half hour session at the end where you can ask anything you've ever been wondering about Rotary

Please register online to receive the Zoom link and further information:

<https://forms.gle/ZoWFmTtPUGoSiD9x8>

If you have any queries, please let me know.

I look forward to seeing as many of you as possible online on the 15th of May.

Your Legacy, Rotary's Promise

Your annual gifts to The Rotary Foundation are helping people around the globe live better lives today.

Planning a gift to Rotary's Endowment supports these same life-changing programs forever.

Learn how the next century of service begins with your Rotary legacy at rotary.org/legacy.

The Rotary Foundation

We Are Family

We often talk about the 'Family of Rotary' and it seems appropriate in the month themed for Maternal and Child Health to discuss it further. When I joined Rotary the hierarchy of focus was clearly stated as Family, Work, Rotary. Family comes first and each person's version of family, whether it be nuclear or extended, varies according to their values, culture and upbringing. Someone commented to me recently that "Friends are the family you choose". However you define it, how well does Rotary and your club accommodate your version of family?

- Social events at a time and venue which are suitable for all family members;
- Meetings are open to family members;
- Family members are included at an important member event like induction, presentation of a PHF or changeover to a new President;
- Member's partners, or nominated support person, are invited to be on the club newsletter distribution;
- Club support is given to a member and/or their family at life-changing moments;

Rotary North Harbour's current President Wallace de Costa took his daughter to school each morning. To be able to do this and attend his club's Friday breakfast meeting, she would accompany him to the meeting. She had books and items to entertain her and the club presented her with her own name badge.

Past Rotary Whangarei South member Toni Morris had a similar situation, except her club met in the evening. Daughter Truth was a frequent participant when bringing her along was more convenient for Toni and there were many members ready to connect with her.

Rotary Westhaven's member, Chandu Daji brought each of his grand-children along to the club's regular gift-wrapping project with the Auckland City Mission once they turned nine. It has been a rite of passage within the family and an eagerly awaited event. Click on this link to see the [Rotary Club of Maidenhead Bridge, UK](#) family-friendly approach.

And remember your **Rotary Alumni**, who are also part of the Rotary family. Staying connected with those people your club has sponsored on Rotary programmes is beneficial for all concerned and Rotary programmes provide a generational pathway.

Your Rotary Family Tree

There have been, and are, a number of Rotary family members in the district.

Past Governor Michael Hill and his daughter, Vicki are both members of Rotary Henderson. Brother and sister, George Wood and Janice Dowle are members of Rotary Takapuna and Rotary Birkenhead respectively. There are also several couples who are both Rotarians, sometimes in the same club, different clubs or even different districts.

Do you have a Rotarian family member in your past or present?

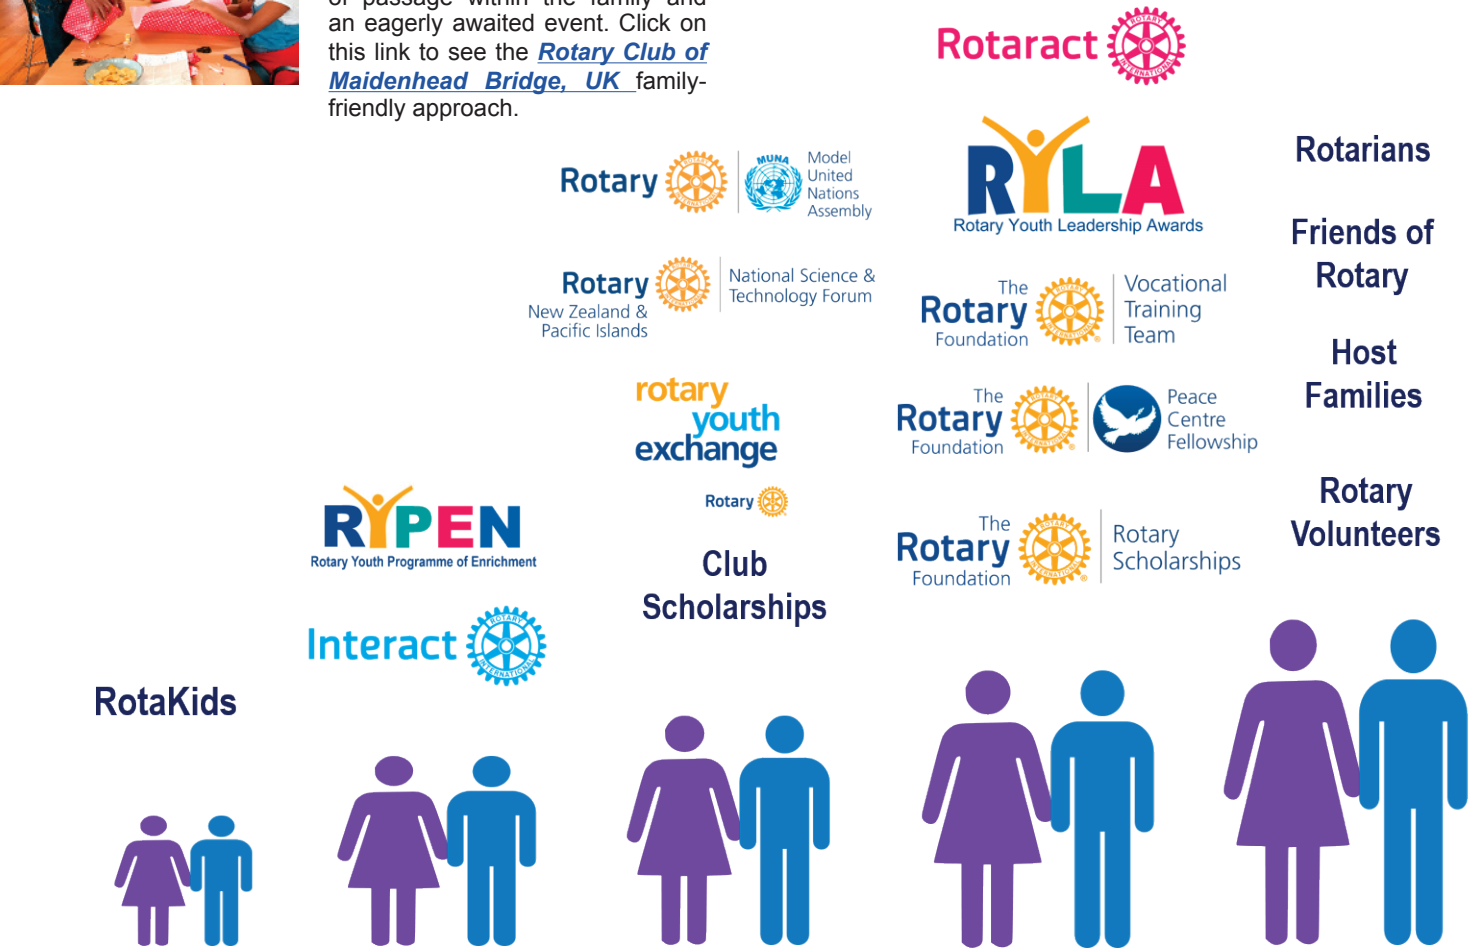

You can have your Rotary record linked to Rotary family members. Send your name and Rotary ID#, along with your family member's name, club, Rotary ID# (if possible) and the relationship to data@rotary.org.

Relationship links currently available are:

- Parent;
- Brother;
- Sister;
- Child;
- Spouse/Partner

There are also relationship links available for those from Rotary Youth Exchange who have become Rotarians. Provide your Host Counsellor's or Host Parent's name, along with club, Rotary ID# (if possible) and the 'Relationship start date' and 'Relationship end date'.

Ehara taku toa he toa takitahi, engari he toa takitini
Success comes from the strength of the multitude not of the lone individual

ROTARY

- 100 YEARS -

- 100 KAURI TREES -

- \$100 / TREE -

Rotary Site

This area is the highest area of the farm that is currently being re-established in native bush. This involves substantial earthworks and the creation of three 'natural reservoirs' that provide the water sources to wild life. The dedicated Rotary area is part of this wider development and preliminary clearing and composting has already been completed (shown as the cleared area in the photo). Access to the area is being improved with its wide views, seating, and parking areas.

Many of those who have purchased kauris have done so to commemorate family members. These provide an appropriate and lasting record, however once part of established bush, identification and access is difficult. It is therefore planned to have a large permanent notice board on which the personal labels or plaques that record the donation are fixed – these can be as simple or as elaborate as required. The exact location of each individuals' tree will be logged on a GPS plan.

We are looking for individuals or Clubs to commit to one or more trees at \$100. We are already half way there! Planting will get underway in May/June, depending on weather conditions. Planting will be by horticultural specialists, however any help will be gratefully received.

Gill and Kevin Adshead are committed environmentalists who have over the last 10 years, successfully re-established Kiwi on their 1200ha farm, Manaia, on the Kaipara Harbour North of Auckland. They retired from running the farm to

devote their energies full time to conservation and predator control. Over 100 kiwi are now breeding on their farm, in native bush that directly bounds onto the Kaipara Harbour. Itself a unique environment that is the breeding nursery for the majority of fish stocks around the top half of the North Island. It is indeed a special place.

They set up the Forest Bridge Trust whose vision is for a predator free 'Bridge' between the Kaipara Harbour and the Pacific Ocean at Mangawhai. Their aim is for an area over 10,000ha that gives critical mass that ensures the long term survival of Kiwi. They now have many local land owners involved, substantial financial support from DoC's Kiwi Fund and a large group of enthusiastic community volunteers.

Our Rotary Club is launching a Centenary Project as a lasting contribution to the environment that is environmentally responsible and affordable – The 100 -100 -100 Plant a Kauri Tree Project. It regenerates kauri bush for \$100/kauri tree and supports the growth in kiwi numbers. The aim is for Clubs and individuals to support this project that will plant 100 trees, each supported by five other native forest trees, podocarps or similar. It will result in a lasting grove of established native bush and extend the area for kiwi to regenerate, a fitting permanent recognition of Rotary's first hundred years in New Zealand.

Gill and Kevin are enthusiastic and will provide the 10,000 sqm required at no cost in a dedicated lease. Planting would start in May/June 2022 with supporting nursery planting. The trees have been secured within the cost budget, and has professional horticultural oversight. The area has good vehicle access, and visitors are welcome at any time to enjoy the views or the many walking tracks. A similar area of dedicated bush is now over 20 years old and provides the model as to how this will evolve.

Payments can be made to the Rotary Club of Takapuna North Community Charitable Trust Account. 03 0180 0173178 000. In order to receive a tax receipt, kindly put the following details with the Payment:- Name; Ref = Trees
